Dear Dan:

Enclosed is the recommended Fly-Away Kit for System 5, M1 which is the second version of System 5. Your approval of this list is requested. The estimated cost per Fly-Away Kit is \$16,811.44; the fixed fee on this amount at 8.25% is \$1,386.94; and the total estimated cost, including fee, is \$18,198.38. We assume that you will want two such Fly-Away Kits.

In accordance with your June 22 letter No. 16184, we are proceeding with procurement of the long lead-time items on this list.

No component spares have been included in this list since we believe adequate support for the amplifiers, power supplies, and System 1 recorder exists in present System 1 FAK's, and adequate support for the System 4 recorder will be included in the System 4 FAK.

25X1A

A copy of this list is being furnished separately to [REDACTED] for his review.

Sincerely,

Dean
